Steve,

Attached is an amendment request form. I spoke with Dave Robinson, and others that will be working on the TDD (Jamie Miller and John Lucotch) and we determined that with the new lab costs, and tasks assigned to us at this time, we believe that we will be able to finish out the project with another \$19,000. This figure depends on the amount of data received and amount of time it requires to put into scribe and other factors that are unknown at this time. I have a breakdown of costs based on base period year 2 rates available if you would like to see it.

Let me know

Thanks
